Preface	1
Prolegomena	2
<i>What?</i> — the object of classification	3
<i>Why?</i> — the aims of classification	5
<i>How?</i> — the ways of classification	7
Synopsis	8
Part I — To live and learn	13
1 Six planes from theory to life	13
1.1 Six planes	13
1.2 Sophia + Phronesis = Philosophy	19
1.2.1 Speculative/inflationary: systematic philosophy	21
1.2.2 Speculative/deflationary: naturalism and worldviews	25
1.2.3 Critical/inflationary: transcendental philosophy	28
1.2.4 Critical/deflationary: logical philosophy	30
1.3 Sophia <i>vs</i> Phronesis	34
1.4 Interlude: a temporary conclusion	36
1.5 Episteme + Techne = science	37
1.5.1 What is science? The problem of demarcation	38
1.5.2 A tight net: the web of beliefs	41

1.5.3	Whither "bad science"?	42
1.5.4	Science needs to be about something...	43
1.6	Episteme <i>vs</i> Techne	44
1.6.1	The knowledge in "practical knowledge"	44
1.6.2	The practical in "practical knowledge"	46
1.6.3	Semantic miscellany	47
 Part II — Composing the World		55
Foundations: Three lenses into existence		55
	The metaphysical lens: <i>what is this?</i>	56
	The ontological level: <i>what is there?</i>	57
	The meta-ontological level: <i>what is being?</i>	59
 2 Vista: Three realms of Reality		63
2.1	The physical realm	64
2.1.1	Its extension	64
2.1.2	Its structure: a universe full of things and stuff.	67
2.1.2.1	The composition question	68
2.1.2.2	The constitution question	76
2.1.3	Relative identity	84
2.2	The mental realm	90
2.2.1	The mental and the physical	91
2.2.2	The marks of the mental	92
2.2.2.1	Phenomenal states	93
2.2.2.2	Intentional states	95
2.2.3	Towards a typology of mental states	100
2.2.3.1	Consciousness	100
2.2.3.2	A two-dimensional model	102
2.2.4	Disjunctivism and intentionalism	103
2.3	The abstract realm	107
2.3.1	Characterization	108
2.3.2	Common universals & particulars	110

2.3.3	Meaning, truth and reference	112
2.3.3.1	Semantics in context	112
2.3.3.2	Reference	114
2.3.3.3	Truth-value and propositions	116
2.3.3.4	Meaning — the modal and structural theories	119
2.3.3.5	Meaning — names, senses & descriptions	124
2.3.4	Signs and semiosis	131
2.3.5	Modality	135
2.3.5.1	Possible worlds	135
2.3.5.2	Concretism	138
2.3.5.3	Abstractionism	140
2.3.5.4	Two sides of the same coin?	141
2.3.5.5	Impossible worlds	142
2.3.6	Meinong's jungle	143
2.3.6.1	Nonexistents and indeterminates	143
2.3.6.2	Fictions	146
3	Blueprint: Twenty-eight layouts	149
3.1	Inter-level metaphysics	150
3.1.1	The quest for fundamental categories	150
3.1.2	Grounding	152
3.1.3	Other relations	157
3.1.4	28 solutions	163
3.2	The mind-body problem	165
3.2.1	{1} : eliminative materialism	165
3.2.2	{1>2} : physicalism	167
3.2.3	{1 2} : mind-body dualism	169
3.2.4	{1<2} : idealism	172
3.2.5	{2} : radical solipsism	178
3.3	The problem of universals	179
3.3.1	{N} : nominalism	179
3.3.2	{1>3} : immanent realism	182
3.3.3	{2>3} : psychologism	183
3.3.4	{N 3} : platonism	184

3.3.5	$\{\aleph < 3\}$: abstractionism	188
3.3.6	$\{3\}$: nihilism	190
4	Edifice: Eight storeys to build the World	191
0	Meta-ontology: what is existence?	192
1	Formal ontology	193
1a	Logical foundations: is there one true logic?	193
1b	Ontological foundations: what are the modes of existence?	195
1b.1	Vocabulary	197
1b.2	Syntax	199
1b.3	Logical existence	200
1b.4	The axiom schema	201
1b.5	Metaphysical axioms	202
1b.6	Deduction system	204
1b.7	Ontological semantics	205
1c	Mathematical foundations: what are mathematical entities?	210
1c.1	Ontological positions	210
1c.2	Mathematical structures in the formal ontology	214
1c.3	Foundational options	219
1c.4	Crisis redux?	223
1c.5	A way forward	227
2	Ontology	231
2a	Physical objects: do they form a fundamental category?	231
2b	Mental states: do they form a fundamental category?	232
2c	Abstract entities: do they exist?	233
3	Mereology	235
3a	Physical composition: when do objects compose other objects?	235
3b	Mental structure: how does macroscopic mentality emerge?	236
3c	Abstract algebra: how do abstract entities combine?	238
4	Metaphysics	240
4a	Substance: are particulars just bundles of properties?	240
4b	Essence: what makes ordinary objects what they are?	244
4c	Constitution: how are ordinary objects individuated?	245
5	Modality	248

5a	Nomic necessity: are there other worlds than ours?	250
5a.1	Physically possible worlds in cosmology	250
5a.2	Physically possible worlds in quantum physics	252
5a.3	Nomically possible worlds	256
5b	Metaphysical necessity: which others worlds are possible?	258
5c	Logical necessity and beyond: are there impossible worlds?	262
6	Semantics	264
6a	Reference: how do linguistic terms come to denote things?	264
6b	Truth: what type of things can be true; what makes them so?	267
6c	Meaning: is linguistic meaning exhausted by reference?	269
6c.1	Meaning, modality, reason: the golden triangle	271
6c.2	The triangle, broken	273
6c.3	Epistemic vs Metaphysical modalities	276
6c.4	Indicative vs Subjunctive conditional	277
6c.5	Purely descriptive vs purely causal reference	278
6c.6	Conceivable scenarios vs possible worlds	281
6c.7	Narrow vs wide mental content	285
6c.8	Two-dimensional semantics	287
7	Axiology	293
7a	Reasons: what is the fundamental unit of reason?	294
7a.1	Action	294
7a.2	Teleology	295
7a.3	Rationality	296
7a.4	Reasons	298
7b	Norms: do normative facts exist?	301
7b.1	The normativity of reasons	301
7b.2	A typology of norms	303
7b.3	The semantics of norms	305
7b.4	The ontology of norms	307
7b.5	The metaphysics of norms	310
7b.6	The epistemology of norms	311
7c	Value: is there such a thing as intrinsic Good?	312
7c.1	Re-framing norms as value judgments	312
7c.2	Intrinsic value	315

7c.3	Meta-epistemology as a remedy to relativism . . .	317
7c.4	Virtue normativity	320
7c.5	The ontology of absolute values	322
 Part III — Our Unfolding Universe		329
5	The Great Chain: Thirteen stages of evolution	329
5.1	Levels of organization	331
5.2	Sequencing principles	331
5.2.1	Complexity	332
5.2.1.1	Emergence of value and complexity	332
5.2.1.2	Grounding, reduction & more	334
5.2.2	Time	336
5.2.2.1	Historical progression	336
5.2.2.2	Evolutionary selection	337
5.2.3	Space	338
5.2.3.1	Parthood & membership	338
5.2.3.2	Individual size	340
5.3	My principles: a manifesto	341
5.3.1	Monism & panpsychism	341
5.3.2	A double axis of scale	344
5.3.3	Production in a mesosphere	344
5.3.4	Meta-stability and final states (an axis of rarity)	346
5.3.5	Emergence of perfection as plucking of abstracta	348
5.4	The meaning of the world	349
5.5	The chain	350
 6	 The Cosmos era	 351
6.1	Level 1: Spacetime — 0s	351
6.1.1	The physics cube	352
6.1.2	Planck's natural units	353
6.1.3	The Planck epoch: 0 to 10^{-43} s	354
6.1.3.1	Unified forces	355

	6.1.3.2	Quantum gravity and spacetime compactification .	360
6.1.4		The Grand Unification epoch: 10^{-43} to 10^{-35} s	364
	6.1.4.1	Symmetry as a generating principle	364
	6.1.4.2	Quantum Electrodynamics: the original quantum field theory	370
	6.1.4.3	Quantum Chromodynamics: the platonic ideal of Yang-Mills gauge theories	376
	6.1.4.4	Electroweak unification	382
	6.1.4.5	The Higgs mechanism, crowning achievement of the Standard Model	393
	6.1.4.6	Beyond the Standard Model: the minimal $SU(5)$ GUT	400
	6.1.4.7	From $SO(10)$ to E_8	408
	6.1.4.8	"Magical" supersymmetry	412
6.1.5		The stable, (very) far future	419
6.2		Level 2: Forces — 10^{-35} s	421
	6.2.1	The Standard Model epoch: 10^{-35} to 10^{-12} s	422
	6.2.2	The quark epoch: 10^{-12} s to 10μ s	423
	6.2.3	The stable future	424
6.3		Level 3: Matter — 10^{-5} s	425
	6.3.1	The hadron epoch : 10μ s to 0.5ms	425
	6.3.2	The meson epoch : 0.5ms to 5ms	426
	6.3.3	The electron epoch : 10ms to 10s	426
	6.3.4	The nucleon epoch : 10s to 2min	427
	6.3.5	The nucleosynthesis epoch : 2 to 20min	428
	6.3.6	The plasma epoch : 20min to 47k years	429
	6.3.7	The atomic epoch : 47k to 370k years	429
	6.3.8	The golden epoch : 370k to 2M years	432
	6.3.9	The stable future	432
6.4		Level 4: Structure — 2M years	433
	6.4.1	The dark epoch : 2M to 100M years	434
	6.4.2	The cosmic dawn epoch : 100 to 250M years	443
	6.4.3	The reionization epoch : 250 to 400M years	446
	6.4.4	The stable future	447

6.5	Level 5: Systems — 400M years	447
6.5.1	The galactic epoch : from 400M years	449
6.5.2	The stellar epoch : from 1bn years	454
6.5.3	Molecules	457
6.5.4	The stable future	464
6.6	Level 6: Globes — 5 billion years	466
6.6.1	The nebular epoch : 0 to 1M years SE	468
6.6.2	The disk epoch : 1 to 10M years SE	469
6.6.3	The protoplanetary epoch : 1 to 10M years SE	470
6.6.4	The planetary epoch : 10 to 100M years SE	471
6.6.5	The Hadean epoch : 100 to 500M years SE	471
6.6.6	Macromolecules	474
6.6.7	The stable future	478
6.7	Level 7: Environment— M years	479
6.7.1	The Terran epoch : from 500M years SE	481
7	The Life era	495
7.1	Level 8: Life — M years	495
7.1.1	The proterozoic epoch	496
7.2	Level 9: Mind — M years	496
7.2.1	The mental epoch	497
7.3	Level 10: Meaning — M years	497
7.3.1	The sign epoch	497
8	The Culture era	499
8.1	Level 11: Language — M years	499
8.1.1	The language epoch	500
8.2	Level 12: Law — M years	500
8.2.1	The law epoch	501
8.3	Level 13: Culture — M years	501
8.3.1	The culture epoch	501

Part IV — A Compendium of All Things 505

9 Simplex Compendium 505

9.1	The triangle of science	509
9.1.1	Natural and Human sciences	509
9.1.2	The Unity of Science question	511
9.1.3	Unity	512
9.1.3.1	Empiricism & utilitarianism	512
9.1.3.2	Positivism	513
9.1.3.3	Mill's moral sciences	516
9.1.4	Division	518
9.1.4.1	Nomothetic vs idiographic methods	518
9.1.4.2	<i>Erklären</i> vs <i>Verstehen</i> modes of knowing	520
9.1.4.3	Coda	523
9.1.5	The tripartition	524
9.1.5.1	Six sciences of nature	524
9.1.5.2	Six sciences of society & history	524
9.1.5.3	Six sciences of mind & culture	524
9.1.5.4	One formal science	524
9.2	The tetrahedral classification	525
9.2.1	Transversal structure: nineteen domains	525
9.2.2	Longitudinal structure	525
9.2.2.1	A note on neologisms	525
9.2.2.2	The four <i>theoria</i> planes: objects, events, concepts	525
9.2.2.3	The <i>poiesis</i> plane: artifacts, edifices	525
9.2.2.4	The <i>praxis</i> plane: actors	525
9.2.2.5	Sub-divisions and cross-pollinations	525

10 Formal & Natural domains 527

10.1	Arithmochora — the Mathematical domain	527
10.1.1	Terminology	527
10.1.2	Arithmatoms (mathematical objects)	528
10.1.3	Arithmoplases (mathematical events)	528
10.1.4	Arithmenoia (mathematical concepts)	529

10.1.5	Arithmosophy (mathematical philosophy)	529
10.1.6	Arithmology (mathematical science)	529
10.1.7	Arithmotechny (mathematical technique)	534
10.1.8	Arithmurgy (mathematical activities)	537
10.1.9	Arithmergons (mathematical artifacts)	538
10.1.10	Arithmodomes (mathematical edifices)	539
10.1.11	Arithmanthrope (mathematical actors)	539
10.1.12	Arithmopraxy (mathematical experience)	540
10.2	Dynamochora — the Physical domain	540
10.2.1	Terminology	540
10.2.2	Dynatoms (physical objects)	540
10.2.3	Dynamoplases (physical events)	542
10.2.4	Dynamonoia (physical concepts)	543
10.2.5	Dynamosophy (physical philosophy)	543
10.2.6	Dynamology (physical science)	544
10.2.7	Dynamotechny (physical technique)	549
10.2.8	Dynamurgy (physical activities)	561
10.2.9	Dynamergons (physical artifacts)	562
10.2.10	Dynamodomes (physical edifices)	563
10.2.11	Dynamanthropes (physical actors)	563
10.2.12	Dynamopraxy (physical experience)	563
10.3	Cosmochora — the Astronomical domain	563
10.3.1	Terminology	563
10.3.2	Cosmatoms (astronomical objects)	564
10.3.3	Cosmoplases (astronomical events)	565
10.3.4	Cosmonoa (astronomical concepts)	565
10.3.5	Cosmosophy (astronomical philosophy)	565
10.3.6	Cosmology (astronomical science)	566
10.3.7	Cosmotechny (astronomical technique)	566
10.3.8	Cosmurgy (astronomical activities)	568
10.3.9	Cosmergons (astronomical artifacts)	569
10.3.10	Cosmodomes (astronomical edifices)	570
10.3.11	Cosmanthropes (astronomical actors)	570
10.3.12	Cosmopraxy (astronomical experience)	570

10.4	Hylechora — the Chemical domain	570
10.4.1	Terminology	570
10.4.2	Hylatoms (chemical objects)	570
10.4.3	Hyleplases (chemical events)	570
10.4.4	Hyleneoia (chemical concepts)	570
10.4.5	Hylesophy (chemical philosophy)	570
10.4.6	Hylelogy (chemical science)	570
10.4.7	Hyletechny (chemical technique)	570
10.4.8	Hylurgy (chemical activities)	572
10.4.9	Hylergons (chemical artifacts)	572
10.4.10	Hyledomes (chemical edifices)	572
10.4.11	Hylanthropes (chemical actors)	572
10.4.12	Hylepraxy (chemical experience)	572
10.5	Geochora — the Geological domain	572
10.5.1	Terminology	572
10.5.2	Geo-atoms (geological objects)	572
10.5.3	Geoplases (geological events)	572
10.5.4	Geonoia (geological concepts)	572
10.5.5	Geosophy (geological philosophy)	572
10.5.6	Geology (geological science)	572
10.5.7	Geotechny (geological technique)	572
10.5.8	Geo-urgy (geological activities)	574
10.5.9	Georgons (geological artifacts)	574
10.5.10	Geodomes (geological edifices)	574
10.5.11	Geo-anthropes (geological actors)	574
10.5.12	Geopraxy (geological experience)	574
10.6	Ecochora — the Ecological domain	574
10.6.1	Terminology	574
10.6.2	Eco-atoms (ecological objects)	574
10.6.3	Ecoplases (ecological events)	574
10.6.4	Econoia (ecological concepts)	574
10.6.5	Ecosophy (ecological philosophy)	574
10.6.6	Ecology (ecological science)	574
10.6.7	Ecotechny (ecological technique)	574

10.6.8	Eco-urgy (ecological activities)	576
10.6.9	Ecorgons (ecological artifacts)	576
10.6.10	Ecodomes (ecological edifices)	576
10.6.11	Eco-anthropes (ecological actors)	576
10.6.12	Ecopraxy (ecological experience)	576
10.7	Biochora — the Biological domain	576
10.7.1	Terminology	576
10.7.2	Bio-atoms (biological objects)	576
10.7.3	Bioplases (biological events)	576
10.7.4	Bionoia (biological concepts)	576
10.7.5	Biosophy (biological philosophy)	576
10.7.6	Biology (biological science)	576
10.7.7	Biotechny (biological technique)	576
10.7.8	Bio-urgy (biological activities)	577
10.7.9	Biorgons (biological artifacts)	577
10.7.10	Biodomes (biological edifices)	577
10.7.11	Bio-anthropes (biological actors)	577
10.7.12	Biopraxy (biological experience)	577
11	Social & Historical domains	579
11.1	Topochora — the Geographical domain	579
11.1.1	Terminology	579
11.1.2	Topatoms (geographical objects)	579
11.1.3	Topoplases (geographical events)	579
11.1.4	Toponoia (geographical concepts)	579
11.1.5	Toposophy (geographical philosophy)	579
11.1.6	Topology (geographical science)	579
11.1.7	Topotechny (geographical technique)	579
11.1.8	Topurgy (geographical activities)	581
11.1.9	Toporgons (geographical artifacts)	581
11.1.10	Topodomes (geographical edifices)	581
11.1.11	Topanthropes (geographical actors)	581
11.1.12	Topopraxy (geographical experience)	581
11.2	Chremochora — the Economic domain	581

11.2.1	Terminology	581
11.2.2	Chrematoms (economic objects)	581
11.2.3	Chremoplases (economic events)	581
11.2.4	Chremonoia (economic concepts)	581
11.2.5	Chremosophy (economic philosophy)	581
11.2.6	Chremology (economic science)	581
11.2.7	Chremotechny (economic technique)	581
11.2.8	Chremurgy (economic activities)	583
11.2.9	Chremorgons (economic artifacts)	583
11.2.10	Chremodomes (economic edifices)	583
11.2.11	Chremanthropes (economic actors)	583
11.2.12	Chremopraxy (economic experience)	583
11.3	Phylochora — the Sociological domain	583
11.3.1	Terminology	583
11.3.2	Phylatoms (sociological objects)	583
11.3.3	Phyloplases (sociological events)	583
11.3.4	Phylonoia (sociological concepts)	583
11.3.5	Phylosophy (sociological philosophy)	583
11.3.6	Phylology (sociological science)	583
11.3.7	Phylotechny (sociological technique)	583
11.3.8	Phylurgy (sociological activities)	585
11.3.9	Phylorgons (sociological artifacts)	585
11.3.10	Phylodomes (sociological edifices)	585
11.3.11	Phylanthropes (sociological actors)	585
11.3.12	Phylopraxy (sociological experience)	585
11.4	Dikaichora — the Legal domain	585
11.4.1	Terminology	585
11.4.2	Dikatoms (legal objects)	585
11.4.3	Dikaiplases (legal events)	585
11.4.4	Dikainoia (legal concepts)	585
11.4.5	Dikaisophy (legal philosophy)	585
11.4.6	Dikailogy (legal science)	585
11.4.7	Dikaitechny (legal technique)	585
11.4.8	Dikurgy (legal activities)	587

11.4.9	Dikurgy (legal activities)	587
11.4.10	Dikaigons (legal artifacts)	587
11.4.11	Dikaidomes (legal edifices)	587
11.4.12	Dikanthropes (legal actors)	587
11.4.13	Dikaipraxy (legal experience)	587
11.5	Politochora — the Political domain	587
11.5.1	Terminology	587
11.5.2	Polatoms (political objects)	587
11.5.3	Politoplases (political events)	587
11.5.4	Politonoia (political concepts)	587
11.5.5	Politosophy (political philosophy)	587
